2022 State Tax Information

Shareholders filing 2022 State Income Tax Returns are advised that a portion of the distributions shown in Box 1a (Ordinary Dividends) on your 2022 Form 1099-DIV were derived from interest income on obligations of the United States and its possessions. Such amounts may be exempt from State Income tax.

Since regulations vary from state to state as to this tax treatment, it is recommended that shareholders consult with their own tax advisors with respect to the tax treatment of these dividends in those respective states.

Use the following to calculate the amount of income exempt from State Income Tax (if applicable to your State):

- ➡ If you were a shareholder for the entire year, multiply your ordinary dividends by **0.00%**.
- ➡ For shares held less than the entire calendar year, multiply your dividend payments by the applicable percentages below:
